Mazzolari was founded in a barber shop in Milan in 1888 by Augusto Mazzolari, who was so passionate about fragrances that he created exclusive aftershaves and eau de cologne for his male clients. His recipes and love for scent tradition were passed on to his son Ferdinando, then to his grandson Augusto as a young boy. Augusto shared his father and grandfather’s love of fragrance, and devoted himself to the creation and research of perfumes and cosmetics which began in 1966. Mazzolari is a family affair of fragrance lovers that have passed their passions through the ages... In Mazzolari’s creations there is an odour for every taste in what has become one of Italy’s most prestigious perfumeries.

NERO VETIVER

03

ALCHEMICO

Alchemico, a suitably dreamlike, yet contemporary, incense scent with classical leanings but thoroughly modern flourishes.

Alchemico opens with an instantly compelling top note combining fresh, young rose with smooth cypress and a jolt of energized crisp pepper, all blended seamlessly with compelling effect.

**Alchemico Notes**

Rose, cypress, pepper, incense, geranium, vetiver, amber

ALCHEMICO

04

HARTLEY

Determined, searching for true connoisseurs of perfume. Fragrance suitable for those who want to leave an indelible trace of itself.

**Hartley notes:**

Fresh Spicy Woody

Top: Bergamot, Lemon

Heart: Jasmine, Rosemary, Lavender

Base: Sandalwood, Patchouly, Cedarwood

05

MAZZOLARI

This fragrance rediscovers forgotten notes and makes them wonderfully actual for a man who loves to seduce in his authenticity. Starts with classic green and woody notes softened by citrus fruits and the essential sandalwood and vetiver

**Mazzolari Notes**

Sandalwood, vetiver, spices and subtle citrus and green notes

06

ALESSANDRO

Bitter almond, sweet honey and a soft powdery notes give Alessandro a dreamy, rich quality that zips you away to a bedroom filled with satin sheets, candles and exotic candies. Almond and honey are the initial temptresses, beguiling your nose with their sweet charms. As the golden almond scent softens, it develops a lovely powdered almond feel... gentle and embracing. At the base is a vanilla-like warmth with a kiss of sophistication. Elegant, a bit dry, and utterly captivating, Alessandro is considered by many to be Mazzolari 'holy grail' of fragrances.

**Alessandro Notes**

almond, honey, vanilla

07

ORIENTE

Enveloping and intense, Oriente is a bewitchingly full-bodied and spicy floral oriental with an unexpected unisex appeal. Opening with a classically baroque flourish- crisp, bracing mandarin meets lush, sweeping rose. Oriente initially luxuriates in its old-school influence, before opting down a different path. Indeed, the heart notes of cedar and patchouli add smoothness and spice in equal measure, and a rich sandalwood drydown goes smoother still, with a warmth that keeps the rich florals humming at low volume while a lightly powdery amber cradles the whole composition for a delightfully unique blend. A modern take on a classic style, Oriente is destined to appeal to fans of old school and new school alike.

**Oriente Notes**

Mandarine, rose, cedar, patchouli, amber, sandalwood

08

PATCHOULI

In a word: majestic. Mazzolari's Patchouli is smooth, earthy, deeply sweet and spicy all at once, but with absolutely none of the strident notes sometimes attributed to its main note. Rich, deep amber is woven throughout this masterpiece, which we think should just be labelled "aphrodisiac in a bottle." Not for fans of light or breezy scents, Patchouli is a smouldering, exotic animal, and a definite 'must-try' for sensualists (men or women) who revel in its dark and oh-so-dangerous depths.

**Patchouli Notes**

Indonesian patchouli, spices, hints of amber, honey

09

VETIVER

Mazzolari Vetiver is a masterful composition that opens with a spontaneous, bittersweet burst of citrus orange, bergamot and lemon. As they fade to a whisper, a woody vetiver stakes its claim, enhanced by the arrival of spicy sweet nutmeg. Never heavy, Vetiver is a full-bodied, solid fragrance, one that brings to mind driftwood browns, dried herbal greens and deep yellow sunshine. At its base is an elusive tobacco and clean sandalwood fragrant, rich anchors to this captivating, woody combination.

**Vetiver Notes**

Vetiver, spices, subtle floral notes

10

AFRICA

An exotic medley of warm woods and sparkling citrus notes is gently warmed with lavender, clove, and vetiver. It is a Woody Aromatic fragrance.

**Africa Notes**

Bergamot, Cedro, Coriander, Geranio, sandalwood  
Cyclamen  
Amber, patchouli

11

OUD

An oud for true connoisseurs of perfume. A fragrance suitable for those who want to leave an indelible trace of themselves. Inky rose and carnation lend a cold floral harmony to warm woods and patchouli. Smoke curls under branches of birch. Passersby stop dead in their tracks.

**Oud Notes**

Chamomile, oud, rose, cedar, carnation, birch, sandalwood, patchouli, leather.

12

CAROLINA

Unabashedly feminine, unapologetically floral, unmistakably tuberose. Carolina is emotional, irrational and classy all at the same time. A tuberose for lovers of the exotic white floral, but not for shrinking violets. This fragrance has drama and fire. It has emotional baggage. It will not sit quietly or meekly in the corner begging to be noticed. For a woman who revels in the ravishing beauty of tuberose and wears it with confidence... and who loves being noticed.

**Carolina Notes**

tuberose, tonca, white flowers, subtle hint of fruity notes

13

SOFIA

Sofia is a traditionally beautiful fragrance with an unexpected honey rose kicker that leaves just enough room between notes for the wearer's natural body chemistry to play a role. Sweet orange flowers meet a vibrant, sexy heart of jasmine and patchouli. The dry down of stout, lightly masculine cedar and sumptuous rose's honey adds life to the elegance, labeling the wearer as a woman not to be type-cast. Playful and pretty, yet powerful and unexpected, Sofia is as full of delightful contradictions as all modern renaissance women aspire to be.

**Sofia Notes**

Orange flowers, jasmine, patchouli, cedar, rose honey.

14

AMBRA

Ambra goes way beyond its name-sake note, though amber warms up the whole blend with its suave glow. The ginger-spiked mandarin overture is all mouth-watering liqueur - the type you'd sip by a roaring fire. This delectable juice evaporates to unveil a discreet jasmine and ylang-ylang accord, bolstered by a lash of vanilla, folded into the silken labdanum, sandalwood and patchouli base.

**Ambra Notes**

Mandarin, bergamot, chamomile, Chinese ginger, ylang-ylang, Indonesian jasmine, amber, Indian sandalwood, patchouli, cistus labdanum and vanilla

15

VANIGLIA

All the charm and the enveloping warmth of vanilla, with a creamy caramel agreement is balanced by the seductive fragrance of delicate exotic orchids. The delicate floral notes of orchid are subtle and beautifully enhance the femininity of the fragrance

**Vaniglia Notes**

Top: Vanilla  
Heart: Caramel  
Base: exotic Orchids

16

MUSK

Musk opens with a hint of barely-there spice before giving way to the carefree, light white musk in its heart and soul. As it warms with your skin, it soon reveals its fluffy, sweet nature, wrapping you in a cloud of puffy softness, sweet seduction and delicate guile. A standout among other clean musks, this one lasts forever, softening ever so gently. It's the perfume equivalent of a soft cashmere sweater. Pure, white and just a touch of mystery.

**Musk Notes**

light musc, subtle spice notes

17  
MONFORTE II

Monforte II the fragrance of la maison, is An hesperide-citrus, orange and Calabrian bergamot base note with floral-spicy hints of Turkish rose, Egyptian jasmine, nutmeg and cardamom, all of which crowned by a slight amber-vanilla note. Monforte II is a very elegant and charming fragrance.

# JUKINO SHINGYU

BY MAZZOLARI

Jukino is the result of many years of experiments, observations and research, conducted according to the rigorous principles that distinguish all Japanese production, and especially the manufacture of cosmetics. A complete range of a new rich, active skincare brand.

The Japanese are renowned for choosing innovative ideas and products from around the world, reworking them, and perfecting them. We are reversing the process: we are taking our lead from their methods and their technology, in order to create the very best products that are available on the market to suit the particular features of Mediterranean skin.

The natural beauty of the east is the source of inspiration for the whole range. The Lotus and the Peony are the foundation of the active molecules of the products, they are the most celebrated and revered flowers in the East; they symbolize classical Japanese culture and its ideals of feminine beauty, purity, and seduction, flowers that evoke the spirituality of the Japanese woman.

JUKI NO SHINGYU has been created from the flowers' synergy, in order to regenerate, invigorate, protect, moisturize and resist signs of aging.

The pure sea water and seaweeds of the Pacific Ocean have also provided an inexhaustible source of biological elements: vitamins, minerals and sugars which activate and enhance the natural functions of the skin, recharge it with new energy, to produce an immediate youthful effect.

To further counteract the aging process all the special products in the range containing active elements, which have been tested for their specific functions, the result of the most advanced cosmetic research: anti-aging bio-peptides with excellent anti-oxidants, matrikines (which act as messengers of subcutaneous restructurers and repair) in order to foster intracellular communication and generation of new molecules through the bio-fermentation of plant materials; all is obtained by extraction processes that are entirely eco-friendly.

Finally, they include the all-essential components: hyaluronic acid, elastins and collagens, which retexture, regenerate, and preserve the skin's integrity.
